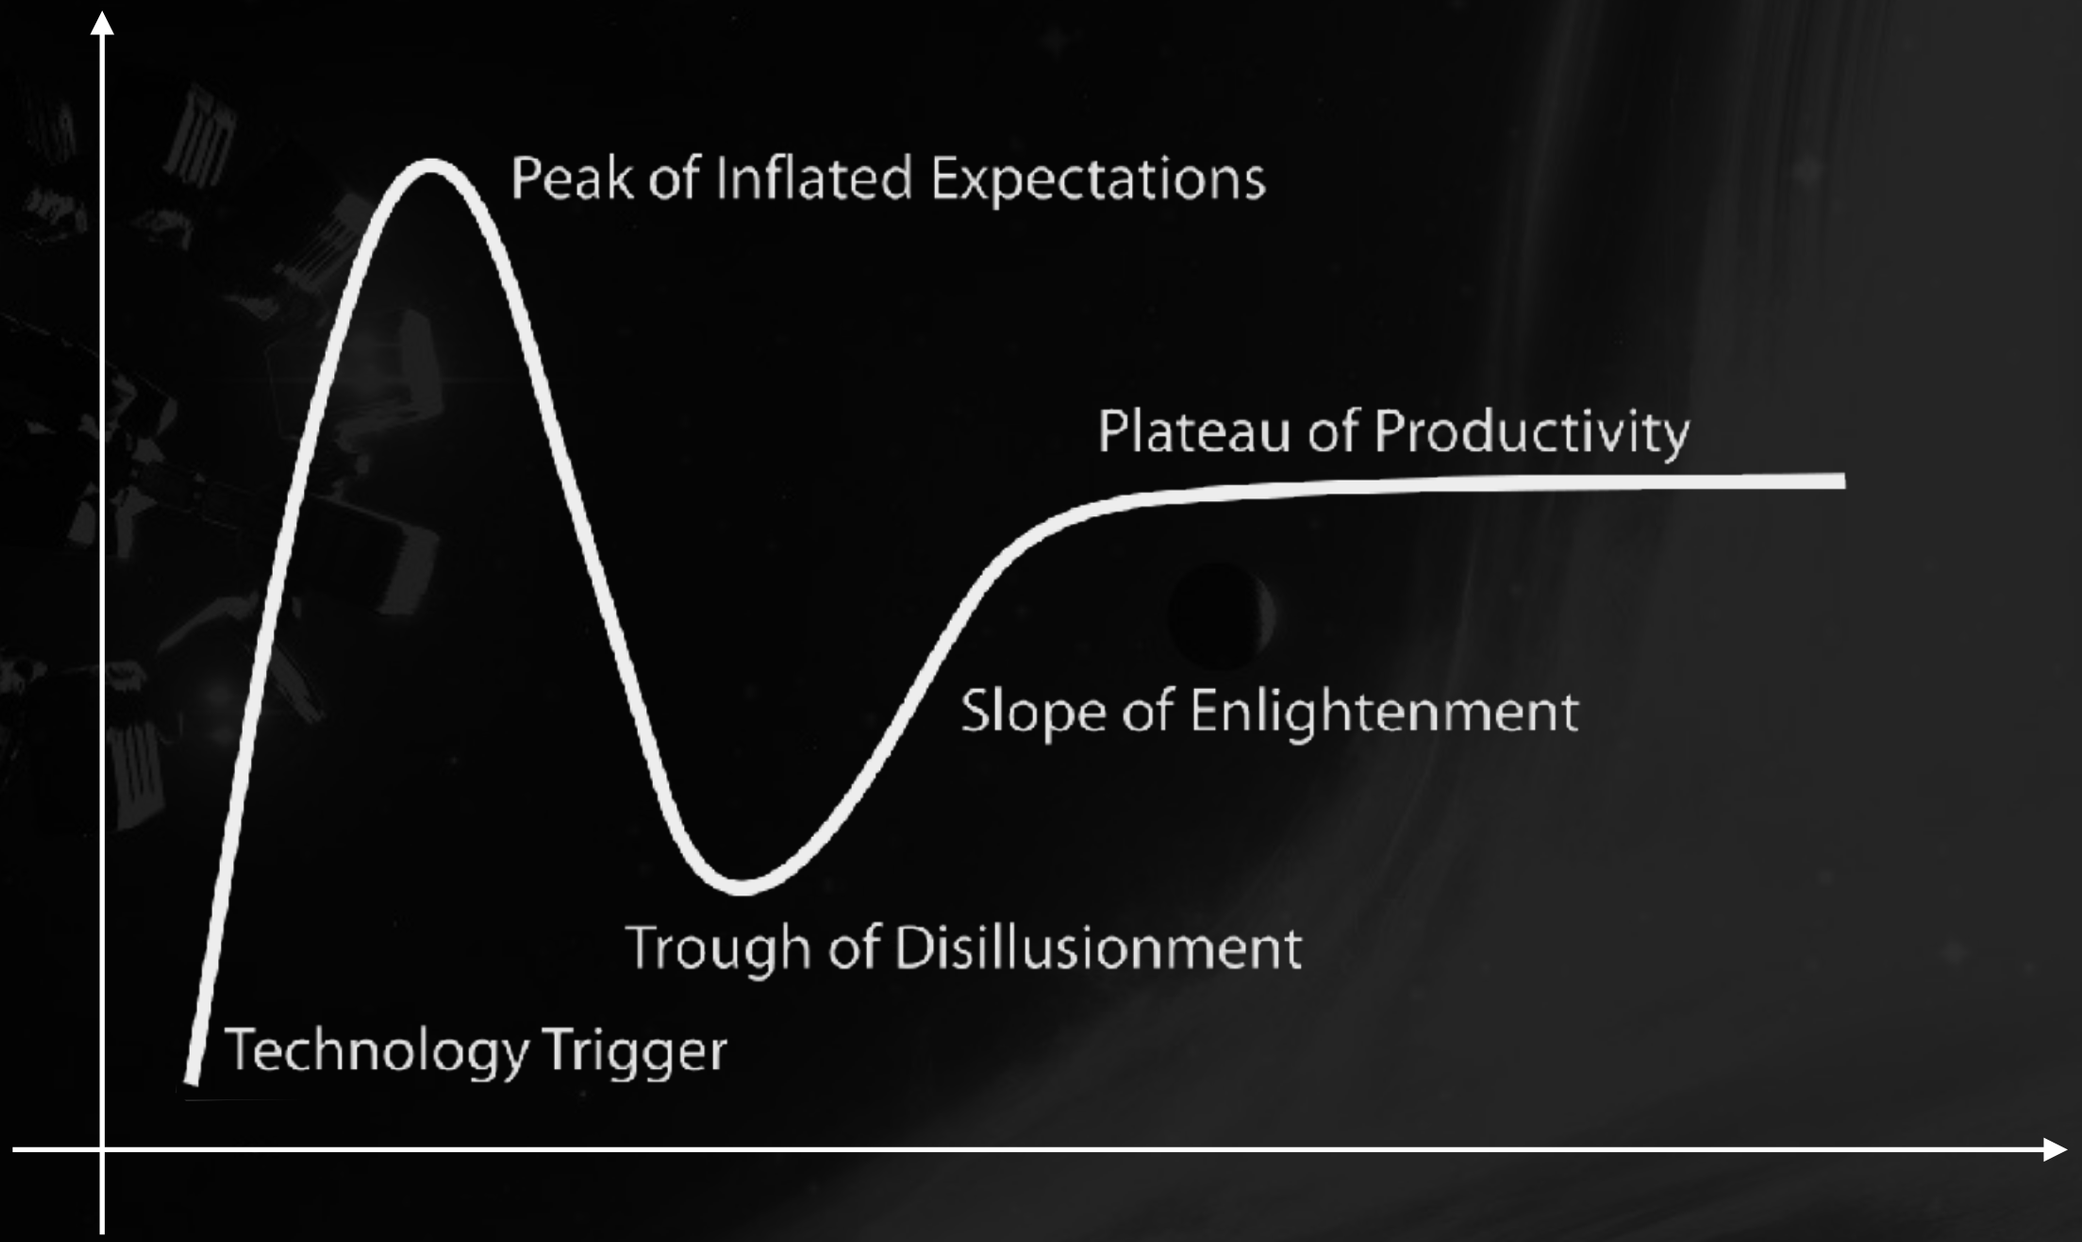
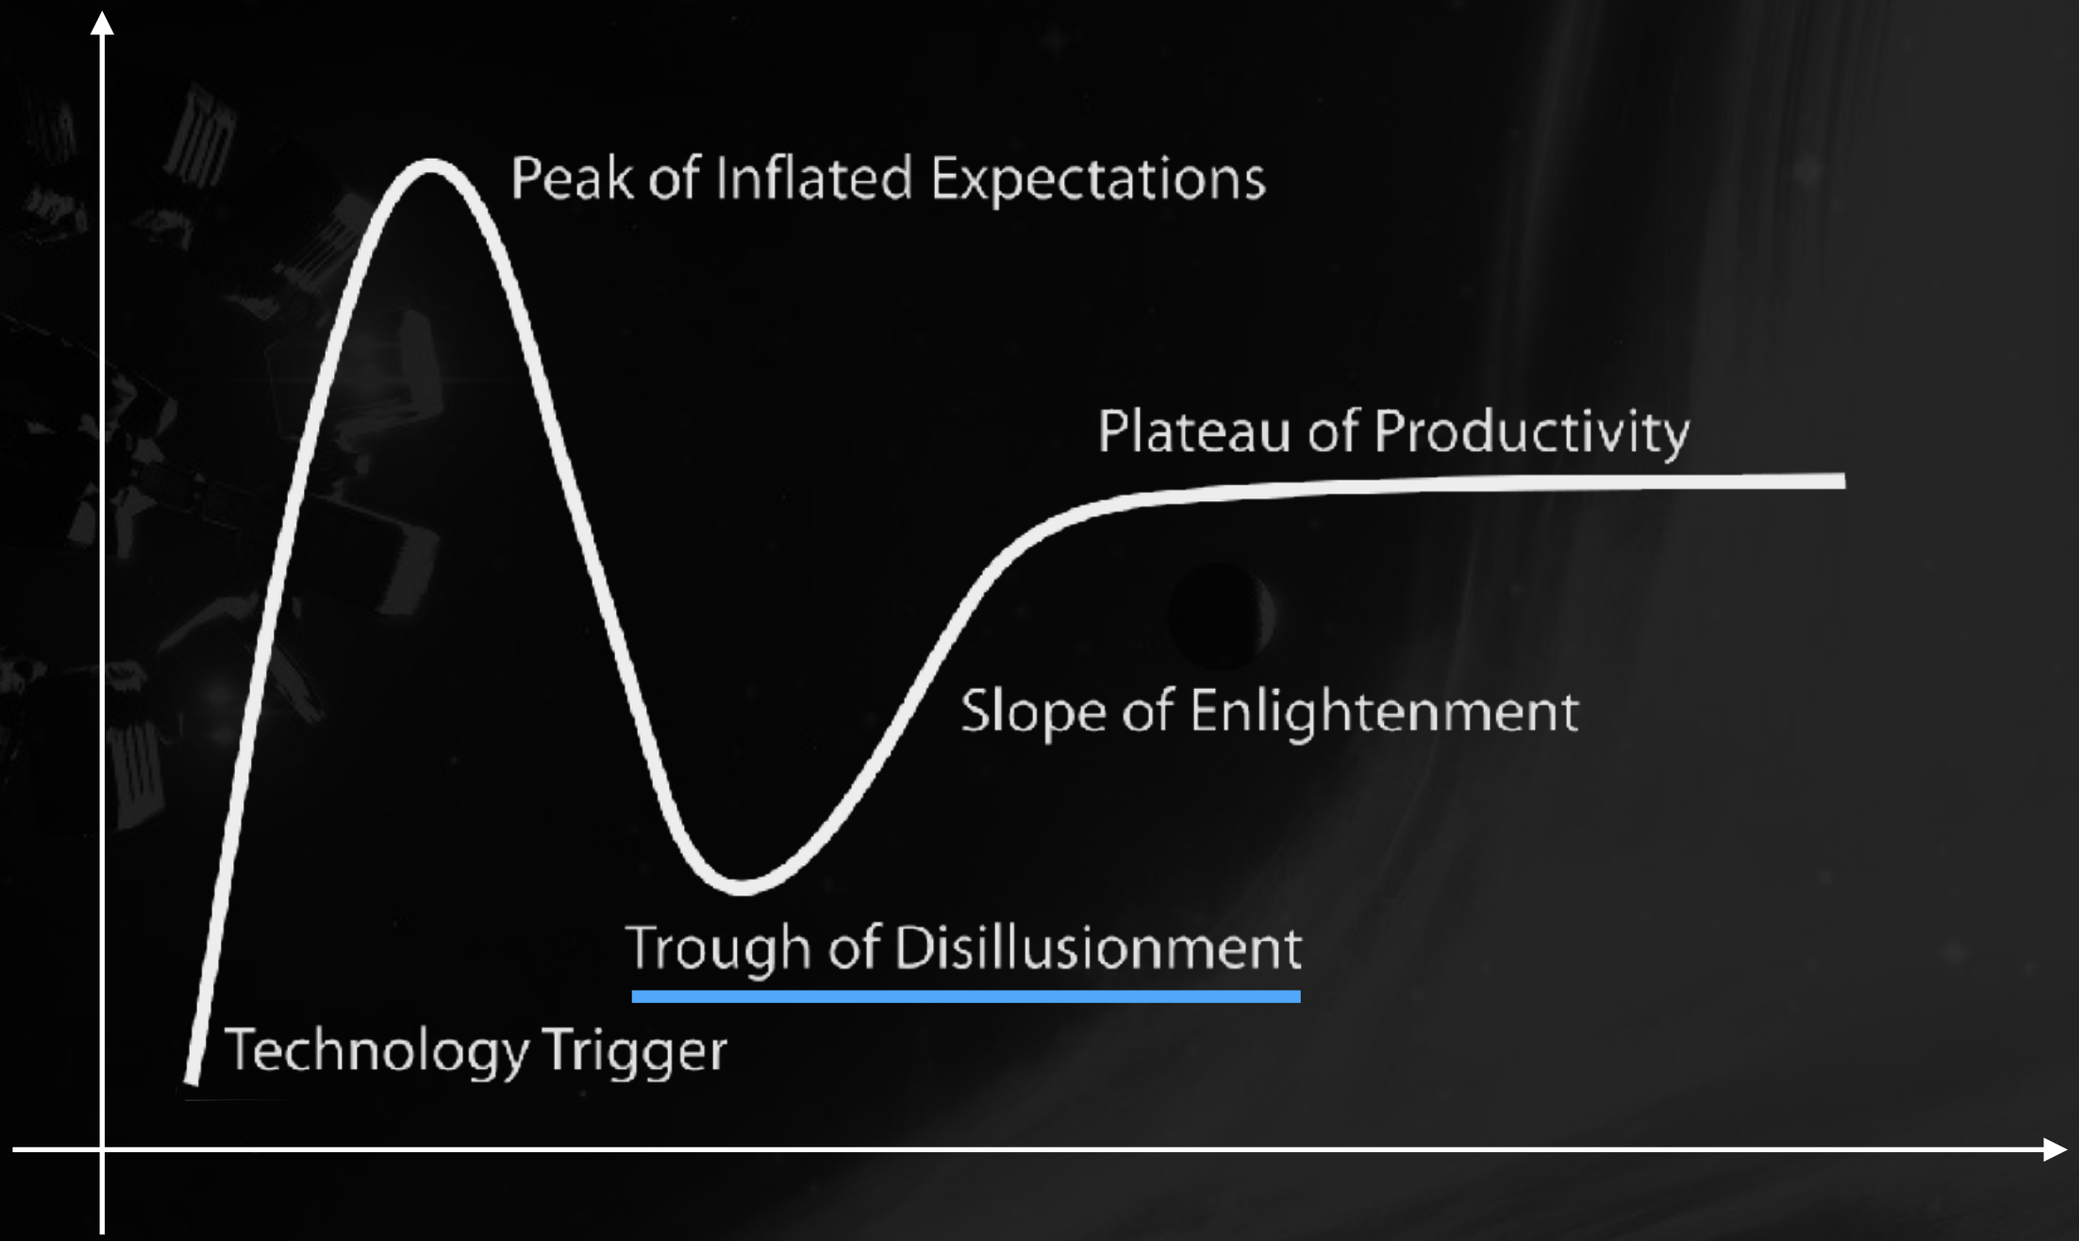
Gartner's Hype Cycle

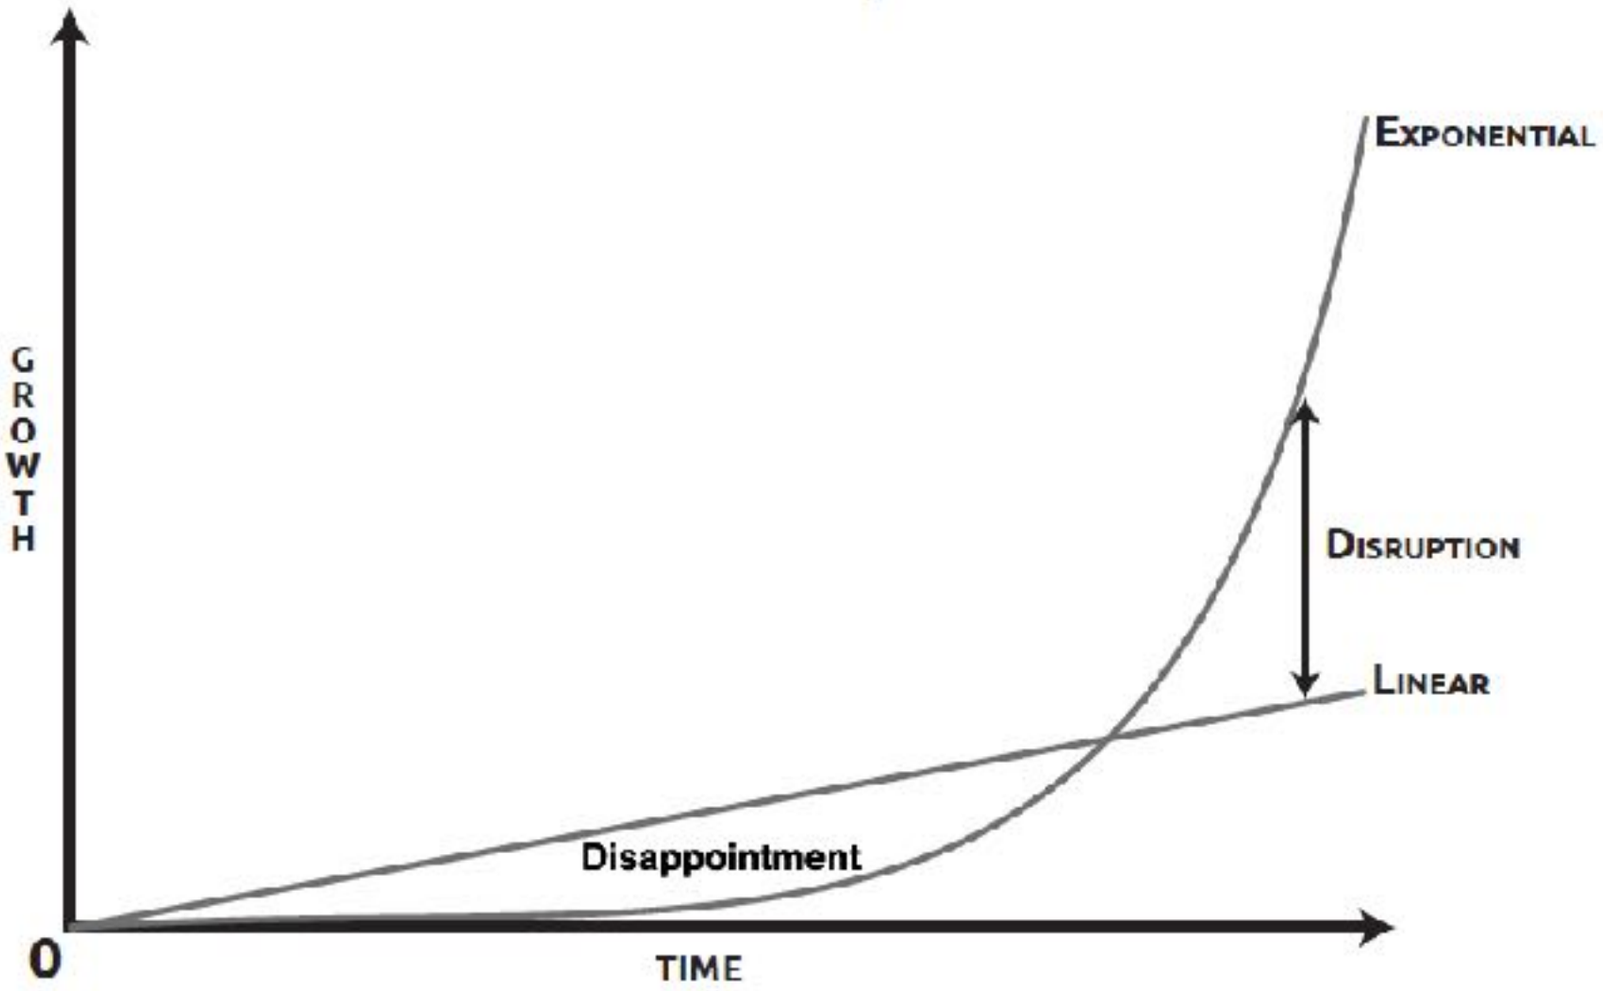


THE DISRUPTION comes because of this.

Gartner's Hype Cycle



Linear vs. Exponential



A GOOD WAY to see the disruption coming.

PEOPLE WILL SAY: this is impossible.

ARTHUR c. clarke

If by some miracle, a prophet could describe the future exactly as it was going to be very precisely, his predictions would sound so **absurd** that people would laugh him to scorn.

-Arthur C. Clarke

If by some miracle, a prophet could describe the future exactly as it was going to be very precisely, his predictions would sound so **unbelievable** that people would laugh him to scorn.

-Arthur C. Clarke

If by some miracle, a prophet could describe the future exactly as it was going to be very precisely, his predictions would sound so **failed** that people would laugh him to scorn.

-Arthur C. Clarke

If by some miracle, a prophet could describe the future exactly as it was going to be very precisely, his predictions would sound so **absolutely** that people would laugh him to scorn.

-Arthur C. Clarke

If by some miracle, a prophet could describe the future exactly as it was going to be very precisely, his predictions would sound so **unbelievable** that people would laugh him to scorn.

-Arthur C. Clarke

Please: don’t do
the opposite.

Don’t be **too aggressive**.

–Aerolito

A GOOD WAY to see the disruption coming.

IS THIS CONVERGENCE really happening?

ARE THEY exponentials?

IF YES, do we want to be protagonists?

IF YES, how do we do that?
